About IVI

The Innovation and Value Initiative Foundation, Inc. (IVI) is a 501(c)(3) nonprofit research organization whose mission is advancing the science of value assessment in healthcare. IVI is a membership organization with both organizational and individual members.

IVI raises the level of discussion of value in healthcare and works to find common ground in approaches to measuring value through research, method development, scientific communication, and engagement. The US health system is diverse, complex, and ripe for innovation in the value space, and IVI is uniquely positioned to challenge outdated thinking and methodologies and provide a learning lab to co-create solutions.

To accomplish this we are building an independent, research-driven organization dedicated to transparency, patient-centeredness, and relevance of value assessment to real-world decisions and experiences of all stakeholders.

We partner with leading organizations and researchers to put patients first, ensure transparent research, widen the stakeholder tent in order to drive scientific advancement.

Diverse perspectives are key to IVI's work. Our membership represents a wide range of stakeholders from across the healthcare ecosystem. They are united in solutions focused collaboration with IVI and our mission to drive the advancement of the science of value assessment.

Each year, IVI brings together it's Membership to engage in productive and action focused discussions that will inform and influence how value is defined in health care.

This year's theme, Accelerating Impact, showcases the progress that has been made over the last year and opportunities for the future.

This event is by invitation only for key decision makers from our Membership. If you'd like an invitation, apply today or consider becoming a sponsor.
